

GitHub

#hackundsoehne

[www.hackundsoehne.de](http://www.hackundsoehne.de)

# Goal

To show you “the correct” GitHub workflow.

#hackundsoehne

[www.hackundsoehne.de](http://www.hackundsoehne.de)

# All the important things:

- Organizations & Repos
- Feature branches
- Issues
- Pull requests
- Protecting branches
- Services
- GitHub Pages
- Personal Access Key

# Organizations & Repos

Exemplator organization demo:

<https://github.com/exemplator>

#hackundsoehne
